Released: 9th Apr 2019

Lancang-Mekong Environmental Cooperation Strategy was officially adopted

On 10 January 2018, the Second LMC Leaders' Meeting was successfully held in Phnom Penh, Cambodia. The meeting released the Five-Year Plan of Action on Lancang-Mekong Cooperation (2018-2022), and it is proposed to formulate the Lancang-Mekong Environmental Cooperation Strategy (2018-2022) in this document to address the environmental issues faced and thus contributing to achieving the overall goals of environmental protection and sustainable development.

In March 2019, after the consultations among Lancang-Mekong countries, the Strategy was adopted. The Lancang-Mekong Environmental Cooperation Strategy primarily clarifies about the priority areas of Lancang-Mekong Environmental Cooperation: Dialogue and Cooperation on Environmental Policies, Environmental Capacity Building, Ecosystem Management and Biodiversity Conservation, Climate Change Adaptation and Mitigation, Urban Environmental Governance, Rural Environmental Governance, Environmental Friendly Technology and Environmental Protection Industry, Environmental Data and Information Management, Environmental Education and Public Awareness. The Lancang-Mekong Environmental Cooperation Center, as the main implementing agency, will continue to promote the "Green Lancang-Mekong Initiative" and focus on supporting the implementation of the Strategy.
